F. The selected environmental response project or action is documented in the Remedial Action Plan for Unsaturated Zone Removal at Former Omaha Manufactured Gas Plant Site, 20th and Center Streets, Lynch Park, Omaha Project no. 80849 approved July 14, 2015. NOW, THEREFORE,

Grantor hereby declares that the Property will hereinafter be bound by, held, sold and conveyed subject to the following terms, conditions, obligations, and restrictions set forth herein, which will run with the land, in perpetuity, unless amended or terminated pursuant to Paragraph 11 below.

1. Representations and Warranties. The Grantor warrants to the other signatories to this Covenant that:

- a. The Grantor is the sole fee title owner of the Property;
- b. The Grantor holds sufficient fee title to the Property to grant the rights and interests described in this Environmental Covenant free of any conflicting legal and equitable claims; and
- c. The Grantor has identified all other persons holding legal or equitable interests, including but not limited to contract buyers, mortgage holders, other consensual lien holders, and lessees and secured their consent.

2. Purpose. The purpose of this Environmental Covenant is to ensure protection of human health and the environment by minimizing the potential for exposure to contamination that remains on the Property and to ensure that the Property is not developed, used, or operated in a manner incompatible with the approved remediation.

3. Running with the Land. The Environmental Covenant is perpetual and conveys to the Holder/Grantee real property rights that will run with the land, and gives to the Agency the right to enforce the activity and use limitations described in Paragraph 4. The terms, conditions, obligations, and limitations in this Environmental Covenant are binding on the Grantor, its successors, heirs, executors, assigns and transferees, and all persons, corporations or other entities obtaining or succeeding to any right, title or interest in the Property after the effective date of this Environmental Covenant. All real estate, lots, or parcels located within the Property are subject to the terms, conditions, obligations and limitations in this Environmental Covenant. Acceptance of any conveyance, transfer, lease or sublease of the Property, or part thereof, will bind each transferee, its heirs, executors, successors, transferees and assigns to the terms, conditions, obligations, and limitations during their respective period of ownership or occupancy, as applicable. Notice of any transfer of any interest in the Property must be promptly provided to the Agency by the transferor. The Grantor is bound by the terms, conditions, obligations and limitations in this Environmental

Covenant only during its period of ownership or occupancy after the effective date. This Environmental Covenant in no way amends, modifies, limits or releases the Grantor from its duties and obligations under the approved environmental response project or action.

4. Activity and Use Limitations. The Property is subject to the following activity and use limitations:

- a. No groundwater drinking wells shall be installed on the Property.
- b. The property shall not be used for any purpose other than commercial or industrial, and shall not be used for residential use or where children may be present for extended periods of time, including schools or day care facilities.
- c. Any ground intrusive work (including, but not limited to excavation, digging and drilling) on the property must be conducted in accordance with the Operation and Maintenance Plan (Burns and McDonnell, September 2017).
- d. Prior to construction of any structure a plan shall be submitted and approved by the Agency. In general, the plan will evaluate vapor intrusion and how any exposure will be mitigated.

5. Reserved Rights of Grantor. The Grantor hereby reserves unto itself and its successors all rights and privileges in and to the use of the Property which are not incompatible with the limitations granted herein.

6. Compliance Reporting. One year from the effective date of this Environmental Covenant, and on an annual basis thereafter until such time as this Environmental Covenant is terminated, the then-current fee simple owner of the Property shall submit to the Agency written documentation verifying that the activity and use limitations remain in place and are being complied with. Any signatory to this Environmental Covenant shall notify the Agency as soon as possible of conditions that would constitute a breach of the activity and use limitations.

7. Enforcement. The terms of this Environmental Covenant may be enforced in a civil action for injunctive or other equitable relief by the signatories and those persons authorized by and in accordance with Neb. Rev. Stat. §76-2611. Failure to exercise such rights of enforcement will in no event bar subsequent enforcement by any signatory and shall not be deemed a waiver of the signatory's right to take action to enforce any non-compliance. Nothing in this Environmental Covenant shall restrict or limit the Agency from exercising any authority under applicable law. The prevailing party in any action to enforce any provision of this Environmental Covenant is entitled to recover all costs of such action, including reasonable attorney fees to the extent such recovery is allowed by law. Any Holder/Grantee and the Agency shall be entitled to recover damages for violations of this Environmental Covenant or for any injury to the remedial action required by the Agency, to the public or to the environment protected by this Environmental Covenant, to the extent such damages are allowed by law.

9. Notice Upon Conveyance. Each instrument hereafter conveying any interest in the Property or any portion of the Property, including but not limited to, deeds, leases and mortgages, shall contain a notice of the activity and use limitations set forth in this Environmental Covenant, and provide the recorded location of this Environmental Covenant.
