

The **BIO-ZIP™** Sealable Liner

The **BIO-ZIP™ Sealable Liner** is a cleaner, more convenient way of managing large volume biological and organic waste streams and the associated odor, leakage, disease and environmental contamination issues.

Animal Carcasses

Bird Droppings

Animal Litter & Bedding

Contaminated Compost

Meat Processing Residue

Contaminated Manure

Spoiled Feed Material

Bio-Sludges

Constructed using a proprietary, thermally bonded layering of polypropylene-based material and featuring an industrial grade zippered sealing system, The **BIO-ZIP™ Sealable Liner** fits securely inside industrial roll-off containers, trailers or truck racks from 10 to 40 cubic yards in total volume. It's easy to install, contains large, heavy loads and slips right out when it's time. **ONE SIZE FITS ALL.**

BIO-ZIP™ features:

- Contact barrier to minimize human exposure, container cleaning, vermin, bugs and disease vectors
- Liquid resistant, flexible construction
- Light material containment during transportation
- Strong, puncture-resistant material
- Breathable zipper to minimize potential vapor expansion
- Odor barrier
- Opaque, visual barrier
- Natural heat retention to jump-start the composting process

Best of all, with The **BIO-ZIP™ Sealable Liner**, you have the peace-of-mind knowing that you used The Best Available Technology for responsibly managing your large volume biological and organic waste streams.

Make an intelligent investment today to protect your future.
