I. INTRODUCTION

This Complaint, Compliance Order and Notice of Opportunity for Hearing is issued pursuant to Neb. Rev. Stat. §81-1507 (Reissue 2008, Cum. Supp. 2010, Supp. 2011). Complainant has determined that the respondent is in violation of the Nebraska Environmental Protection Act (NEPA), Neb. Rev. Stat. §81-1501 *et. seq.* (Reissue 2008, Cum. Supp. 2010, Supp. 2011), Title 123, *Rules And Regulations For The Design, Operation And Maintenance Of Wastewater Works*, and Title 119, *Rules and Regulations Pertaining to the Issuance of Permits Under The National Pollutant Discharge Elimination System*. The Complainant is the Director, State of Nebraska Department of Environmental Quality (hereinafter "NDEQ" or "Department"). The Respondent is the City of Gibbon. The Complaint below establishes the violations.

II. COMPLAINT

1. At all times material herein the Respondent, City of Gibbon, a political subdivision of the State of Nebraska, has owned and operated a wastewater collection and treatment facility located in Buffalo County, Nebraska. The

wastewater collection and treatment facility treats the waste and then discharges the treated waste into the Wood River, a water of the State.

2. Pursuant to the Nebraska Environmental Quality Council's authority to adopt rules for the issuance of operating permits for sources of water pollution, as expressed in Neb. Rev. Stat. §81-1505(11), the Council adopted a rule and standard codified as Title 119, *Rules and Regulations Pertaining To The Issuance of Permits Under the National Pollutant Discharge Elimination System*.

3. At all times material herein the Respondent under Title 119 has had a National Pollutant Discharge Elimination System (NPDES) permit No. NE0029297. Under Title 119, Chapter 3, Section 003, the Director may deny or condition new or increased contributions of pollutants, or changes in the nature of pollutants, to the POTW by Industrial Users where such contributions do not meet applicable National Pretreatment Standards and requirements, where such contributions would cause the POTW to violate its NPDES permit, or where such contributions exceed the reserve treatment capacity of the POTW.

4. Pursuant to Neb. Rev. Stat. §81-1508.02 (1) (b) states that it is unlawful for any person to violate a permit or license condition or limitation. Neb. Rev. Stat. §81-1508.02 (1) (e) states that it is unlawful for any person to violate any duty or provision of the acts, rules or regulations permit or license condition

5. Over approximately the last year, Respondent exceeded permit limits for Total Suspended Solids (TSS), Ammonia, and violated Acute toxicity limitations. Further, over the last two years the Respondent has failed to operate

and maintain the Sequential Batch Reactors (SBR) and anaerobic lagoons as set out in the design of the facility.

6. The Respondent is a "person" as defined in Neb. Rev. Stat. §81-1502(10).

7. Respondent has violated Neb. Rev. Stat. § 81-1508.02 (1) (b) (e) and Title 123, Chapters 11 and 14.

8. The Director also finds that the activity defined in paragraphs 5 above violates the Respondent's permit, poses a potential risk to surface water quality and is a potential risk to public health or welfare.

### III. COMPLIANCE ORDER

9. IT IS HEREBY ORDERED THAT RESPONDENT:

- A. By February 1, 2013 repair all SBR units to operating condition and operate them as designed.

- E. During the effective period of this Order, the Respondent shall not add or allow any other person or party to add any industrial user, commercial user, or housing development service connections to the sanitary sewer system until written approval is granted by the Department.

These reports shall contain information regarding the activities associated with the project, construction schedule and completion date. Respondent shall report to NDEQ any delay in progress with complying with paragraph 9 of this Order.
