# NEBRASKA Air Quality Construction Permit Application DEPT. OF ENVIRONMENT AND ENERGY Form 4.0: Applicable Requirements

#### FACILITY NAME:

DATE:

NDEE Facility ID#:

### Section 4.2: NESHAP Applicable Requirements

IMPORTANT: Do <u>NOT</u> use pencil to fill out this application. Please type responses or use black ink.

For each applicable National Emission Standard for Hazardous Air Pollutants (NESHAP) that a unit(s) or process located at your facility is/will be subject to, identify the applicable requirement (e.g. NESHAP, Subpart ZZZZ), the requirement citation (e.g. T129, Chapter 13, Section <u>001.88</u> and/or 40 CFR 63.6580), and the unit(s), process, or emission point(s) that is subject to the applicable requirement (e.g. EU20, Emergency Generator or EP-32, Fermentation Scrubber Vent). If no units or processes at your facility are subject to any NESHAP requirements (including any area source NESHAPs), this section does not need to be completed and/or submitted. For information about NESHAPs, view <u>http://www.epa.gov/ttn/atw/mactfnlalph.html</u> or contact NDEE MACT Coordinator at 402-471-2186 for assistance.

**NOTE**: Completing this section does <u>not</u> fulfill the initial notification requirements under the NESHAP general provisions; please contact the NDEE MACT Coordinator for initial notification requirements and forms.

### Section 4.2: NESHAP Applicable Requirements (continued)

IMPORTANT: Do <u>NOT</u> use pencil to fill out this application. Please type responses or use black ink.

For each National Emission Standard for Hazardous Air Pollutants (NESHAP) that may appear to apply to a unit(s) or process located at your facility but actually does not apply, identify the applicable requirement (e.g. NESHAP, Subpart ZZZZ), the requirement citation (e.g. T129, Chapter 13, Section <u>001.88</u> and/or 40 CFR 63.), and the unit(s), process, or emission point(s) that is subject to the applicable requirement (e.g. EU20, Emergency Generator or EP-32, Fermentation Scrubber Vent), and the reason why the subpart does not apply.

Applicable Requirement	Requirement Citation	Unit ID# and Description	Reason(s) Why Requirement Does Not Apply
